

Dear Families,

With concerns regarding ticks, mosquitoes and their related diseases, as well as increased concern over sun exposure, we highly recommend that all students have sunscreen and insect repellent applied before going outside while in our care. At WCS, we offer our families three options. Please read below, select one and return this signed form to your child's classroom teacher as soon as possible. Thank you!

Option 1

I authorize the WCS faculty to apply a school provided brand of sunscreen and insect repellent to my child as needed for the 2009-2010 school year. While some manufacturers of these products request that they be rinsed off a child as soon as the child is indoors and no longer exposed, I understand that this is not feasible in a group setting.

Option 2

I will send in my own sunscreen and insect repellent products for the WCS faculty to apply as needed for the 2009-2010 school year. The faculty will notify me when the product is running low so I can replenish this supply. As with Option 1, I understand that the WCS staff will not be able to rinse off this product when my child returns indoors.

Option 3

I am choosing to have NO sunscreen or insect repellent applied to my child while at WCS. I understand that I am fully responsible for sending them to school with proper sun precautions (long sleeves and hat for sun) and will keep these items at school for use at every outside time.

If this is the case, we will notify you and collect a slight additional fee at that time. Please include your cash or check with your permission slip if you are choosing Option 1. Thank you.
